One Pager Directions for Your First Book:

A one pager is a way to **visually** share key ideas and information from what you have learned. When you create a one pager, you are trying to use both visual symbols and important words to clearly and concisely share your more important takeaways with someone else.

For this one pager, I've provided you with templates on the next page!

TEMPLATE 1 MUST INCLUDE:

- A border which represents the key themes from what you have read.
 - An image in the upper left hand corner with a quotation woven into or around it. This image should somehow represent what you consider to be the most important symbol in the text.
 - Images and/or doodled words in the upper right hand corner that represent the key characters from the text and perhaps how they changed.
 - Images and quotations in the lower left hand corner that show the author's style of writing, and the power of language that is used.
 - Images and/or words in the bottom right hand corner that show connections between the themes and ideas in the writing and what is going on in the world today.
 - Three important quotations from the text.
 - Words and/or images that show the significance of the setting in some way.

- A look at the author's style in the upper left hand corner, including some short quotations.
- An image or set of images in the upper right hand corner that represent an important symbol in the book.
- Images and words across the middle that represent the key themes of the book.
- The bottom section should show images and words that connect the text to other texts, movies, history, or modern day life. Must include at least three quotations.
