Science

Unit Overview: Understanding the geologic history of specific regions on Earth helps us understand how rock forms and transforms and how matter cycling on Earth is driven by different sources of energy. Students investigate the cycling of matter (rock material) on Earth and how energy from the sun and from Earth's interior drives different rock transformation processes.

Follow the instructions on Google Classroom for each assignment. I posted resources and videos on the classroom feed, so you can review them for support. For all Padlet posts, write your name on top of the post.

- Lesson 7: Mosa Mack Rock Cycle and Earth's History (Due April 7th)
- Lesson 8: Create a rock cycle comic strip with at least 5 frames, using key vocabulary terms. (Due on April 9th)
- Assessment:** Padlet Discussion Board - Science Rocks! (Due April 9th)

Physical Education

Every Week

Continue filling in your Exercise Logs and try for 30 minutes of physical activity each and every day. We will be checking them on Fridays. Please remember to submit them every week. They will be returned with a comment and no grade but a grade will be uploaded to Pupil Path, and the Final grade on the 17th.

For this week we are finishing our Personal trainer projects they are due on 4/10

You will be creating your own workout routine, as if you are a personal trainer. All the exercises must be carried out safely and use equipment available to anyone at home. You can use your knowledge of fitness, the internet, as well as family members to complete this task. This task will count as one week of your PE grade. Please see the directions on Google Classroom.
