Daily Wonder
One thing from today’s lesson that I would like to know more about is...

__________________________________________________________________________
__________________________________________________________________________

Daily Geography Map
Label the continents and oceans that appear on the adjacent map.

Social Studies Challenge (Extra Credit)
The life expectancy (the age on average that someone will live to before death) of someone living in the United States is 5.5 years less than someone living in Japan but 20 years more than someone born in Ivory Coast. If someone born in Lesotho is expected to live to be 53 years old which is 7 years less than someone born in the Ivor Coast; what is the life expectancy for someone born in Japan?
